#### Introduction

On behalf of the Board of Directors of African Sun Limited ("African Sun" or "the Company") and its subsidiaries, together referred to as "the Group", I am pleased to present to you the condensed consolidated financial statements for the year ended 31 December 2022.

#### **Operating Environment**

The operating environment during the period under review continued to be challenging, characterised by shortages in foreign currency, erratic electricity supply, high lending rates and soaring inflation. The hyperinflationary environment reduced consumers' purchasing power weighing down on domestic demand that feeds into our leisure business.

The official year-on-year inflation rate surged from 60.6% in January 2022 to a peak of 285.0% in August 2022 before decelerating to 243.8% at the end of the year. The inflation pressures eased during the second half of the year as a result of various intiatives that were introduced by the Government in order to instil economic confidence, foster market discipline, and bolster local currency demand. The initiatives included the temporary suspension of lending, introduction of the willing buyer willing seller rate pricing system, introduction of gold coins as a store of value, increase in the bank policy interest rate from 80% to 200%, carrying out value for money audits for all Government contracts, etcetera.

Despite the economic and geopolitical challenges faced on the world stage, the global tourism industry remained resilient in its recovery from the adverse impact of the COVID-19 pandemic. International tourism recorded stronger than expected results in 2022, underpinned by pent-up demand and the easing of travel restrictions across the globe.

According to the United Nations World Tourism Organization, over 900 million tourists travelled internationally in 2022, double those who travelled in 2021 albeit still 37% lower than in 2019. Locally, the Zimbabwe Tourism Authority reported that the country saw a 165% increase in tourist arrivals to 693,498 from 261,415 in 2021 during the nine-month period to 30 September 2022. This however, is still far from the pre-pandemic levels with arrivals for the first nine months being 59% lower than the 1,674,303 arrivals that were received during the same period in 2019. This lag in arrivals trails the international and regional statistics due at least in part to the Country's continued Covid-19 restrictions as compared to competitor destinations.

#### **Financial Performance**

The financial performance commentary is primarily based on inflation adjusted consolidated financial statements, which are the primary financial statements in accordance with the International Accounting Standard ("IAS") 29 – *Financial Reporting in Hyperinflationary Economies*. Historical cost consolidated financial statements have been issued for information purposes only.

Revenue for the year under review was ZWL 31.8 billion, which reflects a 114% increase compared with last year. In United States of American Dollar ("USD") terms as reported for internal financial reporting, Group revenue for the year ended 31 December 2022 amounted to USD 53.2 million, a 62% growth from prior year. This was on the back of a 15 percentage point increase in occupancy and firmer average daily rates ("ADR"). Occupancy at 46% was 2 percentage points below the 48% that was achieved in 2019, the last normal trading year before Covid-19. 60% of the Group revenue was generated in foreign currency. Hotel revenue was split 81% and 19% between domestic and foreign arrivals respectively. The improved performance reflects recovery of both domestic and foreign business. The City and Country hotels recorded 58% occupancies (2021: 45%) whilst the Resort hotels, which have not fully recovered from the impact of Covid 19, achieved an occupancy level of 36% (2021: 19%).

The hospitality segment contributed 98% of Group revenue whilst the real estate segment contributed 2%.

#### **Operating Expenses**

The Group's operating expenses, excluding depreciation, increased by 62% compared to last year as a result of the increase in volumes driving variable costs and inflationary pressures. The Group will continue to monitor costs and implement various cost savings initiatives.

#### Profitability

The Group recorded inflation adjusted earnings before interest, tax, depreciation and amortization ("EBITDA") of ZWL 15.7 billion and profit before tax, depreciation and amortization of ZWL 8.4 billion as a result of improved business performances.

Turning to liquidity the Group is ungeared and had cash and cash equivalents of ZWL 8.7 billion as at 31 December 2022. In USD terms, cash and cash equivalents as at 31 December 2022 grew by 11% to USD 11.2 million from USD 10.2 million in the prior year. We will continue to manage cash flow and liquidity closely as the country faces rising food and fuel prices which not only affect the Group but also our guests.

#### **Update On The Kingdom at Victoria Falls Exit**

The Company ceased operations at The Kingdom at Victoria Falls hotel effective 5 January 2023. The hotel has been under the African Sun stable since 1966 and was being leased from Makasa Sun (Private) Limited. During the year under review, the hotel contributed USD5million towards Group revenue and USD380,000 towards profit before tax. The various hotel refurbishment and expansion projects in the pipeline are expected to ease the profitability pressure that will result from the closure of this hotel.

## Chairman's statement (continued)

#### **Update On Refurbishments and Developments**

Our cash deployment strategy remains unchanged, focusing mainly on targeted capital expenditure on hotel assets in order to enhance the experience of our valued guests and to preserve value. During the third quarter of 2022, we completed the refurbishment of 47 rooms and the kitchen at the majestic five-star, The Victoria Falls Hotel. The Group, together with our partner, Meikles Limited, invested approximately USD5million towards the refurbishment of this property.

The Group also completed the refurbishment of all 70 rooms at Troutbeck Resort during the last quarter of 2022. Meanwhile, work on the Hwange Safari Lodge rooms refurbishment commenced in August 2022 and as at the date of this report, 56 rooms had already been completed with the remaining 44 rooms expected to be completed before the middle of the year. The refurbishment of the remaining rooms at Great Zimbabwe Hotel, including the conference centre is at an advanced stage and is expected to be complete by mid-year.

#### **Dividend Declaration**

The Board authorized a final dividend of 0.1411 US cents per share amounting to a total of USD1,079,273 with respect to the year ended 31 December 2022. A separate dividend notice will be issued, with respect to the dividend declaration.

#### Outlook

While we remain confident about African Sun's future prospects, our outlook is to a greater extent dependent on the political landscape prevailing in Zimbabwe ahead of the 2023 harmonized elections, the evolution of the geo-political tensions in Ukraine and the local and global macro-economic conditions.

We expect international tourism to consolidate its recovery in 2023, underpinned by pent-up demand, particularly from Asia and the Pacific as destinations and markets open up. Benefits from China, following the lifting of the zero Covid policy, are however expected to trickle to the rest of world at a slow pace as airlines and travel agencies scale up capacity.

On the domestic front we anticipate to benefit from various number of high profile events, including elections, because of our widespread geographical presence across the country, the Zimbabwe International Trade Fair where at least 45 new exhibitors and nine foreign nations have already booked, the Victoria Falls Carnival where we are hosting the event at Elephant Hills Resort and Conference Centre, Cricket tours in Harare and Bulawayo, etcetera. On the downside, expiry of Value Added Tax ("VAT") exemptions on domestic accommodation effective 1 August 2022, is expected to put pressure on domestic revenue as we may not be able to pass the full VAT cost to customers due to price sensitivities in our industry.

While we are proud of the hotel refurbishments that we are currently carrying out and those that we have completed, we acknowledge that the remaining hotels are also due for upgrades. In this regard, the Group has commenced preparatory work to upgrade all our hotels to world class standards. We estimate spending approximately USD12 million within the next year or two, depending on business and economic performance, to be funded from our own cash position and borrowings.

We are excited about our upcoming migration from the Zimbabwe Stock Exchange to the Victoria Falls Stock Exchange ("VFEX") in the second quarter of 2023. This move is set to provide us with increased capacity to raise the necessary funds to support the ongoing renovations of our hotels and the development of new projects.

Unfortunately our funding plans and initiatives have been negatively affected by the recent monetary policy statement that removed foreign currency liquidation exemptions for companies listed on the VFEX and companies in the tourism sector. This will make it more difficult for us to access the funding necessary for the extensive refurbishment projects. We will however continue to explore other funding opportunities and leverage our strong relationships with investors and financial institutions to secure the necessary resources to drive our business forward. We are confident that with our experienced team, strategic partnerships, and commitment to excellence, we will achieve our goals and deliver value to our stakeholders.

#### **Directorate Changes**

Mr. Peter Saungweme was appointed as the Chief Executive Officer, effective 1 January 2022.

#### **Appreciation**

I would like to express my sincere appreciation to our staff across the business for their commitment and hard work. To my fellow Directors, I am very grateful for your commitment and contribution to the Group as we work towards our vision of being the leading provider in hospitality and leisure operations in Africa. To our valued customers and broader stakeholders, thank you for your continued patronage and support.

Dr. E A Fundira Chairman

24 March 2023

## **Auditor's Statement**

These condensed consolidated financial statements derived from the audited inflation adjusted consolidated financial statements of African Sun Limited and its subsidiaries "the Group" for the financial year ended 31 December 2022, should be read together with the complete set of audited inflation adjusted consolidated financial statements of the Group, for the year ended 31 December 2022, which have been audited by Grant Thornton Chartered Accountants (Zimbabwe) and the auditor's report signed by Edmore Chimhowa, Registered Public Auditor 0470.

A qualified opinion has been issued on the audited inflation adjusted consolidated financial statements of the Group, for the year then ended. The qualified opinion was issued regarding non- compliance with IFRS 3 "Business Combinations" with respect to measurement of gain on bargain purchase on acquisition transaction in the prior financial year.

The auditor's report includes a section on key audit matters outlining matters that in the auditor's professional judgement, were of most significance in the audit of the inflation adjusted consolidated financial statements. These include revenue recognition and fair value measurement.

The auditor's report on the inflation adjusted consolidated financial statements and the full set of the audited inflation adjusted financial statements, is available for inspection at the company's registered office and the auditor's report has been lodged with the Zimbabwe Stock Exchange.

#### 1 Reporting entity

African Sun Limited ("the Company") and its subsidiaries (together "the Group") manages ten hotels, operates two Lodges under a timeshare model in Zimbabwe, and operates a sales and marketing office in South Africa that focuses on international and regional sales. The Group also has a real estate division that owns seven hotel buildings, that are operated by the hotel division; and owns more than 2,000 hectares of land across Zimbabwe that is held either for capital appreciation or future development.

The Company is incorporated and domiciled in Zimbabwe, and is listed on the Zimbabwe Stock Exchange (ZSE). The parent of the Company is Arden Capital Management (Private) Limited ("Arden"), which owns 60.56% (2021: 62.73%) of the ordinary share capital of the Company.

The Company's registered address is Monomotapa Hotel, Number 54 Park Lane Road, Harare, Zimbabwe.

These condensed consolidated financial statements were approved for issue by the Directors on 24 March 2023.

#### 2 Basis of preparation

The condensed consolidated financial statements have been prepared in compliance with the recognition and measurement requirements of International Financial Reporting Standards ("IFRS") and disclosure requirements of IAS 34 "Interim Financial Reporting", except for non-compliance with IFRS 3 "Business Combinations" with respect to measurement of gain on bargain purchase on acquisition transaction in the prior financial year.

The condensed consolidated financial statements are prepared under historical cost convention as modified by the revaluation of investment property, biological assets and property and equipment and in the manner required by the Zimbabwe Companies and other Business Entities Act (Chapter 24:31). For the purposes of fair presentation in accordance with IAS 29, "Financial reporting in hyperinflationary economies", the historical cost information has been restated for changes in general purchasing power of the Zimbabwe dollar ("ZWL") and appropriate adjustment and reclassifications have been made. Accordingly the inflation adjusted consolidated financial statements represents the primary financial statements of the Group.

The preparation of condensed consolidated financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity whose assumptions and estimates are significant to the consolidated financial statements are disclosed in note 8.

#### 3 Inflation adjustment

IAS 29 requires that financial statements prepared in the currency of a hyperinflationary economy to be stated in terms of a measuring unit current at the reporting date, and that the corresponding figures for prior periods be stated in terms of the measuring unit current at the end of reporting date. The restatement has been calculated by means of adjusting factors derived from the consumer price index (CPI) prepared by Zimbabwe National Statistics Agency ("ZimStat"). The adjustment factors used to restate the financial statements as at 31 December 2022, using 2021 base year are as follows:

Date	Indices	Adjusting Factor
CPI as at 31 December 2021	3,977.46	3.44
CPI as at 31 December 2022	13,672.91	1.00

### 3 Inflation adjustment (continued)

The indices and adjusting factors have been applied to the historical cost of transactions and balances as follows:

All items in income statements are restated by applying relevant monthly adjusting factors;

The net effect of the inflation adjustments on the net monetary position of the Group is included in the income statement as a monetary loss or gain;

Comparative information is restated using the inflation indices in terms of the measuring unit current at the reporting date;

The application of the IAS 29 restatement procedures has the effect of amending certain accounting policies which are used in the preparation of the condensed consolidated financial statements under historical cost convention. The policies affected are:

- Monetary assets and liabilities are not restated as they are already stated in terms of the measuring unit current at the reporting date; and
- Non-monetary assets and liabilities that are not carried at amounts current at the reporting date and components of shareholders equity are restated by applying the relevant monthly adjusting factor;
- Investment property and property and equipment that are carried at revalued amounts which approximate fair values
  and when not revalued are restated by applying inflation adjusting factors from the last date of revaluation;
- Inventories are carried at the lower of cost or net realisable value;
- Biological assets are carried at the lower of cost or fair value, less estimated point of sale costs;
- Deferred tax is provided in respect of temporary differences arising from the restatement of assets and liabilities; and
- All items of statement of cash flow are expressed in terms of measuring unit current at the reporting date.

#### 4 Going concern

The going concern assessment continues to be a significant matter due to uncertainties emanating from the COVID-19 pandemic and instability of the local and global economic environment. Despite the economic and geopolitical challenges faced on the world stage, the global tourism industry remained resilient in its recovery from the adverse impact of the COVID-19 pandemic. International tourism recorded stronger than expected results in 2022, underpinned by the high levels of pent-up demand and the easing of travel restrictions across the globe. According to the United Nations World Tourism Organization ("UNWTO"), over 900 million tourists travelled internationally in 2022, double those who travelled in 2021 albeit still 37% lower than in 2019.

The Group's hotel occupancy for the year ended 31 December 2022 at 46% (2021:31%) was 2 percentage points lower than an occupancy of 48% achieved in 2019 pre COVID-19. Preliminary forecasts from the UNWTO points to continued improvement in occupancies and international travel in 2023. However, should the Group performance be subdued, the Group has enough cash resources to meet all unavoidable operating costs and to continue operations as a going concern in a responsible and sustainable manner.

In their going concern assessment, the Directors took into account, the projected performance of the tourism industry, the cash flow and liquidity projections, including key commitments for a period exceeding 12 months from the reporting date. The Directors have assessed the ability of the Group and the Company to continue as going concern and are of the view that, the preparation of these condensed consolidated financial statements on a going concern basis is appropriate.

#### 5 Accounting policies

The accounting policies adopted are consistent with those of the previous financial year, except for the changes below:

#### a) Acquisition of Dawn Properties: Business Combination of Entities Under Common Control

On 20 January 2021, the Company acquired 91.17% shareholding of Dawn Properties Limited, a Company previously owned by the parent company, Arden Capital Management (Private) Limited. As such, the acquisition was classified as a business combination of entities under common control.

A business combination of entities under common control is scoped out of IFRS 3 - 'Business Combination''. Resultantly, the Group had to develop an accounting policy to account for such transactions in line with IAS 8 - "Accounting Policies, Accounting Estimates and Errors"; and the Conceptual Framework. The Group elected to adopt the acquisition method of IFRS 3 to account for common control transactions.

#### Gain on bargain purchase: Dawn Properties acquisition

The following information relates to the acquisition of Dawn Properties Limited on 20 January 2021 via a share swap:

	INFLATION ADJUSTED		HISTORIC	CAL COST

The purchase consideration, was the market value of African Sun Limited shares issued to Dawn Properties shareholders on 20 January 2021, restated 31 December 2022 in line with IAS 29 - "Financial Reporting in Hyperinflationary Economies".

#### b) Treasury shares and acquisition of the remaining Dawn Properties shares

During the year, the Group acquired the remaining 8.83% issued share capital of Dawn Properties through Tag Along (3.21%) and Drag Along (5.62%) processes in terms of Section 239 of the Companies and Other Business Entities Act [Chapter 24:31]. In line with the provisions of the circular to Dawn Properties shareholders, the Group settled the seller's transaction costs during the process and in turn withheld a number of shares sufficient to cover such transaction costs. The shares withheld are now held by the Company as treasury shares.

### 5 Accounting policies (continued)

#### b) Treasury shares and acquisition of the remaining Dawn Properties shares (continued)

The treasury shares were measured at the value of the transaction costs settled by the Group as this was taken as the consideration paid for the shares. The Group adopted the par value method to record the treasury shares and the shares were deducted from equity with no gain or loss being recognised in profit or loss for the year.

The transaction resulted in a change of degree of ownership in Dawn Properties from 91.17% to a 100% owned subsidiary. As a result of the change of ownership interest, the Group derecognised non-controlling interest and recognised ZWL2.81 billion directly in equity.

#### Definitions of non IFRS measures

#### Earnings before interest, tax, depreciation and amortisation ("EBITDA")

This is the profit before financing costs or income, income tax, depreciation and amortisation.

#### Normalised earnings before interest, tax, depreciation and amortisation

This is EBITDA adjusted for unusual transactions and non-recurring items to allow comparison with prior years.

Investment property includes real estate properties which are owned to earn rentals and for capital appreciation. Investment property is initially recognised at cost and subsequently measured at fair value, with fair value gains or losses being recognised in profit or loss. As at 31 December 2022, all investment property was carried at fair value. Refer to note 8(e) for more details on underlying assumptions used in determining fair value of investment properties.

In line with the strategy to rationalise the Group's property portfolio and focus on high yielding hotel properties, the Board made a decision to dispose Beitbridge Express hotel "hotel asset" in 2021. Transfer from investment property to assets classified as held for sale disclosed above relates to the transfer of Beitbridge Express Hotel from investment property to non-current assets held for sale as the hotel asset only met the conditions to be classified as a non-current asset held for sale in 2022. During the year, the Group actively marketed the hotel asset to various parties and a sale is expected to be completed before the end of December 2023.

#### 7 Discontinued operations and assets classified as held for sale

#### 7.1 Dawn Property Consultancy (Private) Limited ("DPC")

In line with the Board's strategy to rationalize the Group's asset portfolio in order to focus on Group's tourism and hospitality operations, a decision was made in 2021, to sell one of the Group's subsidiaries, DPC. The subsidiary is a property consultancy business that offers property management, asset valuation, agency services, and other property-related ancillary services.

The Group actively marketed the sale of DPC througout the year and successfully completed the disposal of Dawn Property Consultancy (Private) Limited subsequent to year end for ZWL379 million.

#### 7.2 Windspike (Private) Limited ("Windspike")

On 25 July 2022, the Group completed the disposal of a wholly owned subsidiary, Windspike (Private) Limited "Windspike" for ZWL129,165,487. Windspike was a dormant subsidiary with its only asset being the 1.7 Hectares land bank in Harare, commonly known as Honister. This land bank had been classified as a non-current asset held for sale in previous reporting periods.

Included in the loss from discontinued operations and disposal group is a profit of ZWL91 855 346 from this Company.

#### 7.3 The Kingdom at Victoria Falls Hotel ("Kingdom")

The Group mutually terminated the lease agreement of The Kingdom at Victoria Falls Hotel with Makasa Sun (Private) Limited ("the Landlord") effective 31 December 2022. This was following approval by the Board on 20 June 2022 to exit from the lease and discontinue operations by 31 December 2022.

Included in the loss from discontinued operations and disposal group is a loss of ZWL 998,567,736 from this operation.

#### 7.4 Analysis of the profit for the year from discontinued operations

The results of the discontinued operations included in the profit for the year are set out as below.

Disposal group assets relate to Dawn Property Consultancy (Private) Limited which has been classified as held for sale as disclosed above.

Assets held for sale are measured at the lower of carrying amount or fair value less costs to sale as required by IFRS 5 - "Non-current assets held for sale and discontinued operations". The Beitbridge Express Hotel has been measured at Fair Value less costs to sale while assets relating to the DPC disposal group have been measured at their carrying amount.

### 8 Critical accounting estimates and judgements

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are addressed below:

#### (a) Income taxes

Significant judgement is required in determining the liability for income taxes. There are many transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. The Group recognises liabilities for anticipated tax audit issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax assets and liabilities in the period in which such determination is made.

#### (b) Going concern

The Directors assess the ability of the Group to continue operating as a going concern at the end of each reporting period. As at 31 December 2022, the Directors have assessed the ability of the Group to continue operating as a going concern and believe that the preparation of these financial statements on a going concern basis is still appropriate. Some of the initiatives implemented to ensure the Group improves its profitability and continues as a going concern are discussed in note 4.

#### (c) Impairment of trade receivables and financial assets

The Group carried out an impairment review of its financial instruments balances as at 31 December 2022 using the simplified impairment approach which uses both historical and forward-looking information as required by IFRS 9. When developing the simplified impairment provisioning matrix, trade receivables ageing and write offs over the past 5 years were used to assess the historical default rates over the expected life of the trade receivables. The historical default rates are adjusted for forward-looking estimates in accordance with IFRS 9 to determine the average default rate

The following are the critical judgements, apart from those involving estimations, that the Directors have made in the process of applying expected credit losses model of impairing trade receivables. Significant increase of credit risk - in assessing whether the credit risk of an asset has significantly increased the Directors considers qualitative and quantitative reasonable and supportable forward-looking information.

- Model and assumptions used the Group used model and assumptions in measuring fair value of financial assets
  as well as estimating expected credit losses ("ECL"). The directors have applied judgement in identifying the
  most appropriate model for each type of asset, as well as for determining the assumptions used in these models,
  including assumptions that relate to key drivers of credit risks.
- Business model assessment the Group determines the business model at a level that reflects how groups
  of financial assets are managed together to achieve a particular business objective. This assessment includes
  judgement reflecting all relevant evidence including how the performance of the assets is evaluated and their
  performance measured, the risks that affect the performance of assets and how these are managed.

#### (d) Determination of lease terms

The Group leases various office buildings, hotel buildings, golf course, car park and staff housing. Rental contracts are typically made for fixed periods of two years to fifteen years. Leases for hotel buildings have extension options for renewal at the end of the lease up to five renewals at the option of the Group.

The Group determined that the non-cancellable period of the leases are the original lease terms, together with the periods covered by options to extend the leases that the Group is reasonably certain to extend because of both significant leasehold improvements undertaken, and the importance of the underlying lease assets to the Group's operations.

#### 8 Critical accounting estimates and judgements (continued)

#### (e) Principal assumptions underlying estimation of fair value of property and equipment and investment property

The property and equipment and investment property, was valued as at 31 December 2022 by Dawn Property Consultancy (Private) Limited in accordance with the relevant professional guidelines and statements issued under the Royal Institute of Chartered Surveyors Appraisal and Valuation Manual, International Valuations Standards Committee ("IVSC") and the Real Estate Institute of Zimbabwe ("REIZ") Standards.

Freehold properties was valued in ZWL using the market comparable approach. This method compares like with like, extracts data from properties recently sold or on offer similar to those to be valued with the same planning controls. The data is then analyzed and applied to the subject property varied by scrutiny of comparables not exactly equivalent in size, quality and location.

Equipment and motor vehicles were valued in ZWL based on the depreciated replacement cost basis as there was no active market for such assets in Zimbabwe during the year. The depreciated replacement cost is derived from adjusting current prices drawn from recent transactions in general, for contractual, location and inherent differences.

Investment property was valued in ZWL, the valuation basis is a market comparison method for land and cost approach for buildings, both valuation basis conform to international valuation standards.

#### 9 Financial risk management

#### (i) Kev liquidity risk disclosures

Liquidity risk is the risk that the Group may encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset.

Cash flow forecasting is performed at the operating entity level of the Group and aggregated by the Group Finance. Group Finance monitors rolling forecasts of the Group's liquidity requirements to ensure it has sufficient cash to meet operational needs while maintaining sufficient headroom on its undrawn committed borrowing facilities at all times so that the Group does not breach borrowing limits or covenants (where applicable) on any of its borrowing facilities. Such forecasting takes into consideration the Group's debt financing plans, covenant compliance, compliance with internal financial position ratio targets and, if applicable external regulatory or legal requirements, for example, currency restrictions.

Surplus cash held by the operating entities in excess of the amount required for working capital management are transferred to the Group Finance. Group Finance invests surplus cash in interest bearing current accounts, time deposits and money markets deposits, choosing instruments with appropriate maturities or sufficient liquidity to provide sufficient head-room as determined by the above-mentioned forecasts.

The tables below analyse the Group's liquidity gap in to relevant maturity groupings based on the remaining period at the reporting date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows.

### 9 Financial risk management (continued)

#### (ii) Key credit risk disclosures

#### Trade receivables

The Group applies the IFRS 9, simplified approach to measuring expected credit losses which uses a lifetime expected credit loss allowance for all trade receivables. To measure the expected credit losses, trade receivables have been grouped based on shared credit risk characteristics and the days past due.

The expected credit loss rates are based on the payment profiles of sales over a period of 60 months before 31 December 2022 respectively.

The closing expected credit loss allowances for trade receivables as at 31 December 2022 reconcile to the opening expected credit loss allowances as follows:

	INFLATION	ADJUSTED	HISTORICAL COST		
All figures in ZWL	31 December 2022	31 December 2021	31 December 2022	31 December 2021

#### 10 Segment analysis

The executive committee assesses the performance of the operating segments based on:

- hotel occupancies;
- hotel revenue per available room ("RevPAR");
- hotel average daily room rate ("ADR"); and
- profitability.

Operating segments are made up of four strategic business segments which are;

#### 1. Country and City Hotels

This segment comprise Troutbeck Resort, Holiday Inn Harare, Holiday Inn Bulawayo, Holiday Inn Mutare and Monomotapa Hotel. These hotels are headed by the Country and City Hotels Operations Executive who reports to the Chief Executive Officer.

#### 2. Resort Hotels

The segment is made up of the Elephant Hills Resort and Conference Centre, Hwange Safari Lodge, Great Zimbabwe Hotel, Caribbea Bay Resort and The Kingdom at Victoria Falls Hotel. These hotels are headed by the Resort Hotels Operations Executive who reports to the Chief Executive Officer. Subsequent to year end The Kingdom at Victoria Falls Hotel ceased operations on 5 January 2023. Refer to note 7.3 for more details.

#### 3. Partnership

This refers to The Victoria Falls Hotel which is jointly operated with Meikles Limited and is an affiliate of the Leading Hotels of the World ("LHW").

#### 4. Real Estate

This segment owns eight hotels, seven of which are leased to the hotel operating segments above, two timeshare lodges, residential properties in Harare, vast undeveloped land across Zimbabwe, held either for sale or capital appreciation. This segment also includes a property consultancy business that offers property management, valuation, agency services and other property related ancillary services. The consultancy and valuation services business was disposed off subsequent to year end. Refer to note 7.1 for more details.

#### 5. Other

This segment comprise of Sun Leisure, Central Office and the South Africa Reservation Office. Sun Leisure houses the Group's touring division (Sun Leisure Tours) and the Casinos (Sun Casinos).

The South Africa Reservation Office operates a regional sales and marketing office in South Africa that focuses on international and regional sales.

#### 10 Segment analysis (continued)

#### **Revenue from contracts with customers**

Intercompany sales within segments are eliminated on consolidation. The revenue from external parties reported to the executive committee is measured in a manner consistent with how revenue is measured in the statement of comprehensive income. The Group derives revenue from the transfer of goods and services at a point in time in most of its segments while revenue is also recognised over time from timeshares.

The amounts provided to the executive committee with respect to total assets are measured in a manner consistent with that of the financial statements. These assets are allocated based on the operations of the segment and the physical location of the asset.

The Group does not rely on any one specific customer as none of its customers contribute a minimum of 10% of its revenue.

#### 11 Provisions for other liabilities

Provisions are recorded when the Group has a present legal or constructive obligation as a result of past events, for which it is probable that an outflow of economic benefits will occur, and where a reliable estimate can be made of the amounts of the obligations. A reliable estimate is the amount the Group would rationally pay to settle the obligation at the reporting date.

The provisions balance is made up of the following:

	INFLATION ADJUSTED		HISTORICAL COST

#### (a) Leave pay

This amount is the Group's liability to pay employees for their annual leave days. Current provision is included in the statement of comprehensive income under operating expenses.

#### (b) Contractual claim

The amount represents a provision payable to a counterparty arising from a service contract.

#### (c) Other

This amount include provision for exit costs from all foreign entities and interest on contractual obligations.
